

## 4<sup>th</sup> Announcement ECD 2017 & 2<sup>nd</sup> IWC-HTS Abstracts Available Online Pre-Conference Registration Deadline

On behalf of the Cryogenics Society of Europe (CSE), the European Society on Applied Superconductivity (ESAS) and the High-Energy Physics network HEPTech, we are welcoming you to join the

### European Cryogenics Days 2017 and the 2<sup>nd</sup> International Workshop on Cooling Systems for HTS Applications (IWC-HTS)

The technical program of the combined meeting has **36 plenary oral contributions** as well as **19 posters**. All **abstracts are available [online](#)** in the program table.

Please notice that the **pre-conference registration deadline** is on **August 30, 2017**. An extra fee will be charged for later registrations as indicated on the [registration website](#).

The 2<sup>nd</sup> International Workshop on Cooling Systems for HTS Applications is organised in conjunction with the European Cryogenics Days 2017 in Karlsruhe, Germany, on September 13-15, 2017. This meeting is preceding the European Conference on Applied Superconductivity (EUCAS) taking place at CERN, Geneva, September 17-21. The workshop is a follow-up of the 1<sup>st</sup> IWC-HTS held in October 2015 in Matsue, Japan. Its purpose is the effective exchange of up-to-date information on cryocooler and cryoplant developments for HTS applications, as well as state-of-the-art methods for the optimal integration of HTS applications and cooling systems.

Presentations and posters will be made available online. Proceedings will not be produced and therefore, no papers are expected to be submitted by the speakers.

We sincerely look forward to welcoming you to Karlsruhe!

Steffen Grohmann, Marcel ter Brake and Bernhard Holzapfel  
On behalf of the organising team
