

## 1<sup>st</sup> CALL FOR ABSTRACTS

ECD 2017 & 2<sup>nd</sup> IWC-HTS, September 13 -15, 2017, Karlsruhe, Germany

On behalf of the Cryogenics Society of Europe (CSE) and the European Society on Applied Superconductivity (ESAS), we are welcoming you to join the

### **European Cryogenics Days 2017 and the 2<sup>nd</sup> International Workshop on Cooling Systems for HTS Applications (IWC-HTS)**

The 2<sup>nd</sup> International Workshop on Cooling Systems for HTS Applications is organised in conjunction with the European Cryogenics Days 2017 in Karlsruhe, Germany, on September 13-15, 2017. This meeting is preceding the European Conference on Applied Superconductivity (EUCAS) taking place at CERN, Geneva, September 17-21.

The workshop is a follow-up of the [1st IWC-HTS](#) held in October 2015 in Matsue, Japan. Its purpose is the effective exchange of up-to-date information on cryocooler and cryoplant developments for HTS applications, as well as state-of-the-art methods for the optimal integration of HTS applications and cooling systems.

Presentations and posters will be made available online. Proceedings will not be produced and therefore, no papers are expected to be submitted by the speakers. Please refer to our website on <http://www.ecd-iwchts2017.kit.edu> for further information on

- Advisory Committee
